Minutes of Meeting (MoM)

Date: 19-06-2026, Friday

Time: 20:00 – 21:30

Location/Platform: Google Meet

Attendees

- Diksha Sharma (23f2004899@ds.study.iitm.ac.in)
- Karthik V N (23f1000033@ds.study.iitm.ac.in)
- Neha Chacko (24f1002416@ds.study.iitm.ac.in)
- Gaurav Tomar (23f1000805@ds.study.iitm.ac.in)
- Akshatha A (23f1001878@ds.study.iitm.ac.in)

Agenda

i. Review of progress since the previous meeting
ii. Confirmation of business contact and interview planning
iii. Identification of primary, secondary and tertiary users
iv. Preparation of data collection plan

Discussion Points

- **Progress Update**
    - Members shared updates regarding the tasks assigned during the previous meeting.
    - A suitable study library was identified and initial communication was established with the library owner regarding participation in the project
    - The owner expressed willingness to support the user research activities and provide insights into the library operations.

- **Business Understanding**

- The team discussed the information gathered during preliminary conversations with the library owner.
- It was observed that the selected business operates as a Study Library rather than a traditional library.
- Unlike conventional library management systems, the primary focus of the business is not book lending or inventory management. The team noted that the library mainly manages:
  - Student registrations
  - Seat allocations
  - Attendance tracking
  - Monthly fee collection
  - Student complaints
  - Announcements and daily operations
- Members agreed that understanding these workflows in detail would be essential before defining requirements.

- **User Identification**

  - Based on the preliminary understanding of the business, the team discussed potential user groups.
  - Initial user categories identified – Library Owner (Administrator), Library Staff and Students.
  - The team agreed that interviews would help validate and refine these user classifications.

- **Interview and Observational Planning**

  - Members discussed the need to conduct interviews with both the library employees and the students using the facility.
  - The purpose of the interviews would be to understand existing challenges, operational difficulties and user concerns rather that directly proposing software features.
  - The team prepared a list of areas to explore during interviews - attendance management, seat allocation process, fee collection and payment tracking, complaint handling procedures, student communication methods and daily administrative activities.
  - Members also planned to observe existing manual processes wherever possible.

Decisions Taken

- Confirmed the selected business as a Study Library.
- Agreed that the project scope would focus on study library operations rather than traditional library functions.
- Preliminary user groups identified.
- Interview and observation strategy finalized.

Action Items

Task	Responsible	Deadline	Status
Conduct interview with library owner	Gaurav Tomar	23-06-2026	Pending
Conduct interviews with students	Gaurav Tomar	23-06-2026	Pending
Document observations from library operations	All team members	23-06-2026	Pending
Compile interview findings as requirements	All team members	23-06-2026	Pending

Next Meeting

Date: 23-06-2026

Agenda:

- Review interview findings and observations.
- Identity key pain points faced by owners and students.
- Finalize primary, secondary and tertiary users.
- Begin drafting user stories based on identified requirements.
