Minutes of Meeting (MoM)

Date: 23-06-2026, Friday

Time: 20:00 – 21:30

Location/Platform: Google Meet

Attendees

- Diksha Sharma (23f2004899@ds.study.iitm.ac.in)
- Karthik V N (23f1000033@ds.study.iitm.ac.in)
- Neha Chacko (24f1002416@ds.study.iitm.ac.in)
- Gaurav Tomar (23f1000805@ds.study.iitm.ac.in)
- Akshatha A (23f1001878@ds.study.iitm.ac.in)

Agenda

1. Review of interview findings and observation studies
2. Identification of key pain points and user concerns
3. Finalization of primary, secondary and tertiary users
4. Drafting requirements and user stories

Discussion Points

- **Interview and Observation Analysis**
    - Insights gathered from interviews conducted with the library owner, staff members and students was shared.
    - Observations made during visits to the study library were reviewed and consolidated.
    - The team discussed how the current processes are primarily managed.

- **Pain Points and User Concerns**
    - Common challenges identified during the interview included:
      Difficultly maintaining accurate attendance records.
      Time consuming management of student information and seat assignments.
      Manual tracking of monthly fees and payment status.
      Lack of a centralized system for announcements and important updates.

Difficulty monitoring and resolving student complaints

- Additional concerns raised by the students included:
  Limited visibility into their attendance history
  Difficulty tracking payment records and due dates
  Lack of a structured mechanism for submitting complaints and leave requests.
  Reliance on direct communication with staff for routine queries.

- **User Classification**

  - Based on interview findings, the team reviewed and finalized the user hierarchy for the proposed system
    Primary users – Library owner (Administrator), Library staff
    Secondary users – Students
    Tertiary users – Prospective students or visitors

- **Requirements and User Story Discussion**
  -
  - The team began translating the identified pain points in to functional requirements for the proposed system.
  - Core requirement areas identified include – student management, seat management, attendance management, billing and payment tracking, complaint management, announcements and notifications
  - Members reviewed the SMART user story format and discussed how requirements could be represented from the perspective of different user groups.
  - Initial drafting of user stories and the requirements document was started.

Decisions Taken

- Interview and observation findings approved and documented.
- User hierarchy finalized.
- Key pain points consolidated for requirement analysis.
- Core functional modules of the proposed system identified.
- User story drafting initiated based on validated requirements.

Action Items

Task	Responsible	Deadline	Status
Prepare consolidated requirements document	All Team Members	26-06-2026	In Progress
Draft SMART user stories	All team members	26-06-2026	In Progress
Review and refine user stories	All team members	27-06-2026	Pending
Prepare Milestone 1 submission documents	All team members	27-06-2026	Pending

Next Meeting

Date: 26-06-2026

Agenda:

- Review drafted user stories.
- Validate requirements against interview findings.
- Ensure compliance with SMART guidelines.
- Finalize Milestone 1 deliverables.
